MEDICAL CONDITIONS GENERALLY AGGRAVATED BY EXPOSURE

There is no data available which address medical conditions that are generally recognized as being aggravated by exposure to this product. Pre-existing skin, eye and respiratory disorders, however, may be aggravated by exposure to this product.

SECTION VII- FIRST AID PROCEDURES

INHALATION:

If inhaled, remove to fresh air and administer oxygen if breathing is difficult. If breathing has stopped, start artificial respiration at once. Seek immediate medical attention.

INGESTION

Never give an unconscious person anything to drink. If unconscious, treat for shock. Notify a physician or the nearest poison control center immediately. If conscious, have the person rinse mouth with cold water. Do not induce vomiting (vomiting may occur naturally, but it should be avoided if possible). If unconscious and vomiting, turn the person on his side to avoid choking.

SKIN CONTACT

Remove excess material from the skin with a waterless skin cleaner. Flush skin with plenty of water and wash exposed areas with soap and water. Remove contaminated clothing and footwear. Seek immediate medical attention. Wash contaminated clothing and footwear before reuse.

EYES

In case of contact, flush eyes and eyelids with large amounts of running water for at least 15 minutes. Hold eyelids apart to ensure rinsing of the entire surface of the eye and lids with water. Seek immediate medical attention.

SECTION VIII - PRECAUTIONS FOR SAFE HANDLING & USE

STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED

Make sure all personnel involved in the spill cleanup follow good industrial hygiene practices. Any person entering either a significant spill area or an unknown concentration of vapor or aerosol should use a positive-pressure, self-contained breathing apparatus or a positive-pressure, supplied-air respirator with escape pack.

Neutralize spills with a mild acid solution (like acetic acid) before attempting clean-up.

Small spills can be handled routinely. Use adequate ventilation and wear a NIOSH-approved respirator with dust, mist and fume filter to prevent inhalation exposure. Wear protective clothing to prevent skin and eye contact.

Ventilate confined spaces. Dike and soak up spill with absorbent material such as sand or Fuller's earth. Recover free liquid and absorbent material from spill area and place into an appropriate chemical waste container for proper disposal. Flush spill area with water. Observe all local, state and federal laws and regulations regarding disposal, cleanup, removal or discharge.

WASTE DISPOSAL METHOD

Material that cannot be used or chemically reprocessed should be disposed of at an approved facility in accordance with applicable regulations under the Resource Conservation and Recovery Act (RCRA). Dispose of waste materials and empty containers in accordance with all federal, state and local health, safety and environmental regulations. Empty containers may contain residual material. Do not reuse containers unless properly reconditioned.

PRECAUTIONS TO BE TAKEN IN HANDLING AND STORING

Keep containers tightly closed, even when empty. Protect from freezing. Store in a cool, dry, well-ventilated area. Exercise caution to prevent damage to the container. Avoid breathing vapors and mist. Avoid contact with skin and eyes. Keep out of the reach of children.

SECTION IX - CONTROL MEASURES

RESPIRATORY PROTECTION

If used in well ventilated or open areas, use appropriate NIOSH approved dust, mist and fume cartridge respirator equipment. If used in an area without adequate ventilation, employees should be provided with appropriate, approved, air-purifying or supplied-air respirators selected in accordance with NIOSH guidelines.

VENTILATION

Local exhaust and mechanical ventilation in confined spaces is recommended to keep airborne vapor concentrations below exposure limits.

PROTECTIVE GLOVES

Use solvent resistant gloves (PVA, nitrile, neoprene or fluoroelastomer, etc.) are recommended.

EYE PROTECTION

Chemical resistant splash goggles or face shield selected with regard for use condition exposure potential.

OTHER PROTECTIVE CLOTHING OR EQUIPMENT

Long sleeved clothing selected for use with regard to exposure potential is recommended.

WORK/HYGENIC PRACTICES

Wash hands and before eating or smoking.

EXPOSURE LIMITS

No exposure limit has been established for this material. Exposure limits for its hazardous components, if any, are listed in Section II on page one.
